## Frontier's big fiber build nears the halfway point

Frontier Communication's fiber story flipped ahead another page in the third quarter, as the company added record fiber subscribers and stayed on track to hit its big fiber buildout targets.

Frontier is poised to reach 5 million locations passed with fiber-to-the-premises (FTTP) networks this month, putting it at the halfway point toward a goal to reach at least 10 million locations with fiber by the end of 2025.

## Comcast, Charter brand national streaming joint venture as 'Xumo'

Major US operators such as Comcast and Charter Communications are plowing ahead with plans to roll out DOCSIS 4.0. But it's also becoming clear that several others are content to play the waiting game as they instead squeeze more capabilities out of their existing DOCSIS 3.1 networks.

"I think every operator is in various stages of their evolution of HFC [hybrid fiber/coax]," Pao Lo, vice president of network engineering at Midco, said at a Light Reading-hosted breakfast session at last week's SCTE Cable-Tec Expo in Philadelphia.

## SCTE CHAPTER WEBINARS

Share training opportunities with your chapter members by sending a meeting notice at least 3 weeks in advance. Hosting chapters will earn credit for the chapter's attendees, plus credit for hosting a webinar and teamwork points if other chapters participate. Participating chapters will earn technical training hours for their members if at least five chapter members participate. Note: if the training isn't hosted through the SCTE Chapters webinar account, you will need to work with the hosting organization to obtain a list of attendees from your chapter. We are unable to provide attendee info for events not hosted through the Chapters department. See the full chapter training schedule at [scte.org](http://scte.org).
